GEORGE AND SHARY will offer training to local communities to help them prosper into sustainable vibrant church bodies who can share the Good News. Their focus will start in a pocket of target communities where they have already built initial relationships and will continue to build on the firm foundational beginnings of the Angel Dormitory. Please pray for them as they serve in Cambodia, build relationships, and grow in their roles of serving. Pray also for people to be changed through the power of the Holy Spirit in their lives.
